

# Essential Drone Shot List for Real Estate Photography

Use this checklist to deliver the most wanted drone angles and shots to real estate clients. These shots help highlight the property's best features and tell a complete visual story.

## Required Shots (Top 6 Angles):

- 1. Front of Property (Wide Angle) - Captures the overall curb appeal.
- 2. Top-Down Roof View - Useful for showing roof condition, solar panels, and lot layout.
- 3. Backyard View - Especially important for homes with pools, patios, or decks.
- 4. Orbit Around Home - 360 degree motion shot for video tours.
- 5. Fly-In Toward Home - Dynamic shot that builds anticipation.
- 6. Pull-Away/Reveal Shot - Shows the property's setting and surroundings.

## Optional Bonus Shots:

- 7. Community Amenities - Parks, pools, clubhouses nearby.
- 8. Street View - Captures the neighborhood or cul-de-sac feel.
- 9. Sunset or Golden Hour Shot - Enhances property mood and lighting.
- 10. Vertical Clip (15 sec) - For Instagram Reels or TikTok.

*Tip: Always ask the agent if there are specific features they want highlighted (e.g., pool, garage, view). Use consistent lighting and symmetry for best results.*
